Gifted youth and GLBTQ youth share some unique characteristics that other populations of young people generally do not. This program will explore characteristics that appear in gifted, gay and questioning youth populations. We will explore the implications of children questioning their sexual identity at earlier ages and sexually diverse family cultures. We will look at the impact of being gifted on sexual orientation/identity.

Topics include:

- Shared Characteristics of Gifted and Gay Youth
- Trust and Healthy Relationships
- Education's Responsibility to GLBTQ Youth
- Visibility of GLBTQ Issues in Society and Education
- How Overexcitabilities and Sensitivities Impact Gifted GLBTQ Youth

No charge (donations encouraged)
